The cited documents represent the general state of the art.  
The invention defined in claims 1-20 is not disclosed by any of these documents.

The cited prior art does not give any indication that would lead a person skilled in the art to the claimed syntactic polyolefin composition for pipe coating, method for the preparation of a syntactic polyolefin composition or off-shore pipe coated with syntactic polyolefin composition. Therefore, the claimed invention is not obvious to a person skilled in the art.

Accordingly, the invention defined in claims 1-20 is novel and is considered to involve an inventive step. The invention is industrially applicable.
